## EXPERIENCE

### Wipro Limited | Front End Developer , Automation Engineer | Bangalore

(July, 2021 - Present)

Working as **Automation Engineer**

- My responsibilities and daily tasks include monitoring of different business environments before sync up calls, analyzing the automation scripts to rectify Jython dependency if any, designing and building test plans before working on any Java Story.
- Experience in API testing, Automation Testing, Database Testing.
- End to end automation test management experience and working knowledge on Parasoft SOA tool.
- Successfully built 7 automation scripts from scratch. Stages involved: Pre-Automation, Testing and Validation.
- Identifying and Reporting bugs that may arise due to the latest dev code.
- Experience with databases i.e. MongoDB, SQL.

**Front End Developer** (July 2021 - Sept 2022)

- Worked on ReactJS technology, built UI components for the client website.
  - Immensely utilized my knowledge of CSS and Bootstrap in building responsive web designs.
  - Utilized React, JS, and Redux to enhance the user experience of the CMS tool, resulting in a 20% increase in user engagement and a 15% decrease in bounce rate.
  - Collaborated with cross-functional teams to discuss amendments in the latest release in order to meet client demand.
  - Provide assistance to the quality testing members in the team.
